

MAY 10, 2016

Diane Robben to Host HIPAA Workshop on May 25

NEWS & EVENTS: EVENTS

PRACTICE GROUP: HEALTH LAW

RELATED ATTORNEYS: DIANE ROBBEN

The OCR has promised to begin the next round of audits of covered entities and business associates later this year. With the addition of desk audits, experts predict there will be more providers included in the audits and that they will be more burdensome. Now is the time to define your HIPAA Compliance plan to ensure you are prepared before the auditors come knocking.

It is key to review, refine and enforce your HIPAA practices. Be sure to set aside the time now to get your organization into compliance. We can help!

HIPAA WORKSHOP 101 will help you:

Gain a clear understanding of the new HIPAA and HITECH regulations

- Start your own HIPAA binder – materials, templates, and forms will be provided
- Explore the biggest risks individual practices are experiencing
- Know your rights and responsibilities under the new law
- Learn about regional breaches and how to protect your practice
- Stay up-to-date on newest legislation and latest cyber liability information
- Learn how to train your staff and leave with specific action items

Remember! You also need to document your education and training. You'll receive a "Certificate of Completion" after each HIPAA Workshop that you attend.

What To Expect:

Bring your laptop and your questions. Depart with a greater understanding of HIPAA and a partially completed compliance guidebook. During this workshop, you will begin your own three-ring binder – including a table of contents, templates and forms – and obtain the knowledge and awareness of the resources available for you to achieve compliance.

Who Should Attend:

Whether you are a Privacy Officer, Security Officer, Practice Manager or Compliance Director, this HIPAA Workshop will help to improve your organization's overall compliance with the rigorous requirements placed upon you.

Who is Presenting:

Sandberg Phoenix Shareholder Diane Robben has nearly 20 years of experience leading the firm's transactional and regulatory health care practice, devoting a significant amount of time advising hospitals, physicians, nursing homes and other healthcare providers on a variety of issues to find practical solutions to complicated legal problems.

Event Details:

May 25, 2016

9:00am - 3:00pm

135 W. Adams Ave.,
Kirkwood, MO 63122

HIPAA Workshops are unique, practical, hands-on learning opportunities. Each workshop is facilitated by experts in their fields who are ready to share their knowledge and answer your specific questions. Participants will also learn from each other as they share learning experiences and successful practices. Seating is limited – register today!
