Creating Your Family Through Adoption

AUTHOR: JAYNE GLASER

Families can be created in many different ways, including through adoption. Going through the adoption process, whether through foster care or private adoption, domestic or international, can be a challenging process; having an attorney who can assist you through that can help make the process more understandable and manageable. It is one of the great joys of family law work to help parents create and expand their families through adoption. For any questions about the adoption process, please reach out to one of the family law attorneys at Sandberg Phoenix.
